2 March 2007*

Hello again,

A lot of exciting things have been happening since I last wrote to you. For example, I have had many tests and exams. I scored a high score for Italiano Dante Quinto canto, and many other Italian tests that I have been taking have been coming back with excellent results. Also I am starting to be tested on art history and other various subjects like Biology and Chemistry, which is really what I wanted to be doing. I am very happy with the school right now. I also had written in my other letter that I had visited Lisbon with the school here. It was a very good experience as I said before; I didn't expect to travel any other places outside of Italy. Speaking of travelling, I am due to leave to Sardegna (Sardinia) on the 17th of March with Intercultura, which will be fun.

I have made many friends here in Italy. I know this as the other day they all said to me at the same time "when you leave Laure, we will all cry, we consider you as a life long friend". I was very touched by this statement as I never thought that I would have 'lifelong' friends here in Italy.

All of these things that have been happening to me have been making this exchange more than what I could ask for. More than anyone could ask for, and I would like to say thank you for what you have done for me, sponsoring me, without personally knowing me at the start. I would just like to formally thank you as I consider you as a very special person. Thank you very much again for this experience and you will hear from me soon.

Laure Forrester
